## Break through barriers with one modernized platform.

Your teams work hard. That's why they need a connectivity solution that works as hard as they do. Zebra's Workforce Connect PTT Pro operates as a traditional push-to-talk connectivity solution yet eliminates security risks while enhancing device performance with:

- + Private and group calling with up to 250 subscribers at once
- + Customized group settings
- + User locationing (available only to administrators) for better task assignment
- + Device-agnostic PTT features
- + Private messaging that doesn't require public cellular networks
- + Flexible routing options and 24/7 monitoring services

### **Harness the benefits of dependable connectivity:**

Notify entire teams of sudden disruptions in the supply chain

Assign and rearrange tasks based on real-time analytics

Accelerate throughput with hand-free voice commands

Connect with field teams to manage location and delivery times

## Mobile Computing Made for Enterprise and Beyond.

Your teams work hard. That's why they need a connectivity solution that works as hard as they do. Zebra's Workforce Connect PTT Pro operates as a traditional push-to-talk connectivity solution yet eliminates security risks while enhancing device performance with:
